The scatter plot displays 100 data points in a 2D coordinate system. The x-axis ranges from 0 to 10, and the y-axis ranges from 0 to 10. The points are distributed as follows:

- A vertical line of 10 points along the right edge (x=10), spanning y from 0 to 10.
- A horizontal line of 10 points in the center (x=5), spanning y from 0 to 10.
- Several smaller clusters scattered throughout the plot area, including a group of 5 points near (1, 5), a group of 5 points near (2, 2), and a group of 5 points near (8, 8).
